

MARKET UPDATE

ASX Release

HIGHLIGHTS:

- Sales continue to show solid growth in the June quarter, with circa \$520,000 of revenue for the months of April and May 2018, (compared to \$172,000 in April/May 2017, an increase of over circa 200% YOY); and
- Continued growth in systems deployed into the field, with an additional 121 units deployed (sold and rented) in April and May 2018.
- Purchase order received for 45 Spectur HD4 rental systems by a national Australian builder; and
- Potential for the national builder to protect up to 100+ sites Australia wide with Spectur HD4 systems.

12 June 2018: Australian-based remote security monitoring systems and cloud based technology solutions company ('Spectur' or 'the Company') (**ASX:SP3**) is pleased to provide a market update for the trading period April – May 2018.

Market Update - April/May Total Sales Revenue

Sales of the Spectur HD4 have continued to show solid growth in the June quarter to date.

Unaudited sales revenues for April and May 2018 combined totalled circa \$520,000, which is over a circa 200% increase on sales revenues of the previous year's comparative period (April and May 2017) of approximately \$172,000.

The revenue has been driven by continued growth in systems deployed into the field and growing trailing revenues, with an additional 121 HD4 units deployed (sold and rented) in April and May.

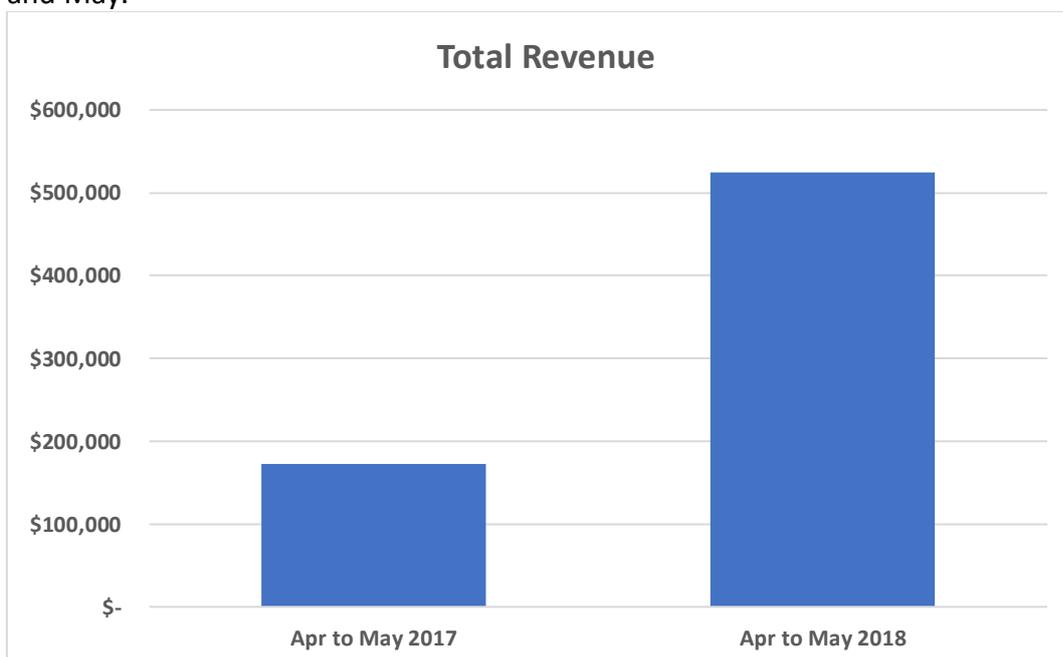

Figure 1: Total Revenue, April-May 2018 compared to April-May 2017

Spectur also achieved priority supplier status to a national Australian builder during the period and has received an initial rental order for 45 Spectur HD4 camera units in the month of June. Spectur achieved the priority supplier status following a competitive tender process which included onsite trials of the Spectur HD4 systems as well as competitor systems.

The 45 units will secure around 20 of the Builders current high-risk locations and represents a portion of the potential rollout to over 120 sites. Spectur Limited and the Builders are working jointly on a wider overall strategy to minimize theft and damage and to provide dynamic innovations to both project management and customer engagement.

Spectur MD, Mr Peter Holton stated “This priority supplier status with a national builder is a result of our national presence which we have built up over the last twelve months. Many national firms are now following a strategy of vendor and product rationalisation. Spectur can provide a national service which increases efficiencies for Tier 1 companies. The Spectur HD4 is seen as the market leading solar security product for industrial and commercial sites in Australia and continues to outperform other units on the market.”

The initial order is for rental units and has a value of \$65,000 over an initial 4-month rental period and the units are expected to roll over onto new sites as existing sites are completed.

Spectur is actively targeting national firms in the construction, transport, critical infrastructure, logistics and resources industries, as well as government and military sectors.

Ends.

ABOUT SPECTUR

Spectur Limited is an Australian-based company which owns the rights to its innovative hardware and disruptive cloud based IOT and security systems which operate in Australia. The two key industries that Spectur currently services are the building/construction/civil industry and the critical infrastructure industry. The Company's focus is to service the commercial, industrial and governments sectors. Spectur's core product is the HD4 security camera system and associated cloud based platform. The HD4 is a solar powered battery backup security system which is remotely accessed and connected via 3G/4G technology which is connected to the cloud based platform. Spectur has also added thermal camera surveillance as a stand-alone system to complement its existing product base. The Company is rapidly implementing a growth plan to firstly grow revenues and market share in the Australian security surveillance sector and, secondly to penetrate other key strategic markets.

FORWARD-LOOKING STATEMENTS

This announcement contains forward-looking statements which are subject to elements of uncertainty, risk and other factors which could cause the actual results or outcomes to differ materially from those stated. These statements are based on an evaluation of current economic, contractual and operating conditions, as well as assumptions regarding future events. These events are, as at the date of this announcement, expected to take place, but there cannot be any guarantee that such events will occur as anticipated, when anticipated or at all given that many of the events are outside Spectur's control.

Accordingly, neither Spectur nor any of its directors, officers, employees, contractors or agents, gives any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this announcement will actually occur as and when anticipated.
