

Spectur Portable Bases

The Spectur portable base options incorporate a wind-up pole on a stable platform giving users the ability to quickly install and relocate Spectur platform on virtually any hard or earthen surface without excavation. The concrete solution, designed to Australian standards can be relocated with a crane or forklift. Metal base solutions can be moved by hand, ute or van and are filled with sandbags or lead weights when in place.

Spectur offer a range of camera lenses to suit different site locations and conditions. For further advice and assistance please contact your local Spectur Solutions Representative.
