

Sense Think Act

Making communities safer, smarter and more sustainable

STA-POWER TRAILER (Light)

Spectur's most rapid, lightweight and cost-leading solar-power deployment platform

Explore our mobile and rapid deployment option for any Spectur systems – a versatile and cost-effective solution designed for simplicity, affordability, and swift implementation.

The new Spectur mobile trailer solution is an easy and efficient choice for rapid deployment. It provides a straightforward, economical, and single person deployable solution, filling the market gap between no mobility solutions that require lifting equipment to move and higher-priced alternatives.

Simply integrate the Spectur system of your choice into this rapid and mobile power platform.

Ratchet strap for transport
Padlock 4-Pack
Battery hold down clamp
Wheel brace
Storage tub
Safety flag
4-meter powder-coated mast
Within a 750kg total trailer weight limit meaning any standard vehicle with tow ball can tow the system

Installation

Can be supplied as a fully integrated solution. Alternatively, the STA-Power-Mobile (Light) can be shipped as a kit to fit out your pre-existing or independently procured trailer. In this instance, a kit will be shipped to you, designed to be fitted locally to any 6x4 trailer. Installation time is approximately 4 hours.

Spectur provides a Trailer Fitout Kit Assembly Guide for easy setup.
