Making communities safer,
smarter and more sustainable

Solar Lighting

Construction – Security – Public Areas

This new solar lighting product from Spectur provides additional lighting independently or in conjunction with our solar deterrent systems. These lights provide a cost-effective solar solution to ensuring that your site remains illuminated, safe and secure.

APPLICATIONS

- Building, construction and development sites
- Infrastructure projects
- Large land access management
- Local Councils, state government and federal government
- Illegal dumping hotspot
- Road use monitoring, e.g hoon driving prevention.
- Outdoor events
- Construction and Mining Site

Stop crime

- Theft
- Illegal dumping
- Vandalism

Improved Safety

- PPE Compliance
- Identify who is on site and when
- Exclusion zone monitoring

Spectur offers a range of platforms to suit different site locations and applications. For further advice and assistance, please contact your local Spectur Solutions Representative.

Main Features

- Solar Powered – to reduce costs in installation and operations
- Built-in sensor to detect movement
- Can operate continuously at full power all night
- Easy to install in-ground or supplied with “portable base” options
- 3-Year warranty
- Low maintenance
- Suitable for Australian conditions
- Temporary lighting for events, projects or “hotspots” such as areas subject to antisocial behaviour
- Purchase, rent or other finance options available

SPECIFICATIONS

Housing	Aluminium
Output Power	80W
Waterproof Rating	IP65
Light Control	Day / night Sensor with variable power mode or motion detection
Sensor Distance	Up to 8m
Certifications	CE & RoHS Approvals
Solar Charging Time	6 hours
Weight	13Kg
Installation	In-ground small footprint or portable base options
Physical Size	Approx. 900x400x180mm
Beam Angle	140°
Total Lumens	170 lm/W
